

AGILE IMPROV WITH VERSIONONE

Training Overview

Successfully applying agile values, principles & best practices to teams

Ideal Audience: Team Members, Developers, Testers, Project Leads, Development Managers, Lead Developers & anyone who is or will be part of an agile team

Duration: One or Two Days

Led by an agile coach and VersionOne product expert, this interactive course teaches key agile concepts and how to apply them in agile teams. The day kicks off with a group exercise to select the agile topics that will be covered to ensure relevancy for all participants. The class will discuss agile values, principles and terminology to ensure you have a solid working knowledge of agile best practices. Additional interactive exercises will help the class understand the application of agile methods to their own teams.

DETAILED COURSE GUIDE
