

VERSIONONE SPRINT PLANNING & TRACKING FOR TEAM MEMBERS

Training Overview

Features & workflow to successfully plan and track sprint activities in VersionOne

Ideal Audience: Team Members, Developers, Testers and anyone using VersionOne for daily sprint tracking

Duration: Two Hours

In this concise two-hour course, a VersionOne product expert will teach Team Members how to get the maximum sprint planning and tracking value from VersionOne. You will learn how to plan sprints as a team, add tasks and tests to backlog items, update to-do and effort during sprint execution and properly close out sprints. The product expert will demonstrate each feature and guide you through hands-on exercises in your own demo project. You'll leave the class with a step-by-step reference guide for using VersionOne as well as a free one-month subscription to your demo project to help ensure success using VersionOne.

DETAILED COURSE GUIDE:

- VersionOne Overview
 - Review Navigation and Project Tree Structure
 - Customize Your Views
 - Product Planning: Create Backlog Items and Defects
