

VERSIONONE TRAINING OVERVIEW

PRIVATE PRODUCT TRAINING

VERSIONONE JUMPSTART

The VersionOne Jumpstart training program is the most effective way to get your team up and running quickly with VersionOne. A VersionOne product expert will deliver two days of product training and implementation consulting onsite, followed by two one-hour remote coaching sessions for your team during key sprint meetings. Onsite product training includes classes for both project leads and team members, with role-based hands-on exercises to give students experience using VersionOne. Implementation consulting includes an evaluation of your VersionOne project tree, overview of VersionOne administration features, VersionOne configuration assistance and best practices for rolling out VersionOne to your organization.

Length: 2 Days + 2 (1-Hour) Remote Sessions
Location: On-site and Online
Price: \$5,000 Plus Travel Expenses

VERSIONONE JUMPSTART FOR DISTRIBUTED TEAMS

For teams that are not co-located, VersionOne Jumpstart for Distributed Teams provides the same set of services as our regular VersionOne Jumpstart program, delivered via multiple two-hour remote meetings. A VersionOne product expert will work with you to design a schedule that fits the needs of your team.

Length: Multiple Remote Sessions
Location: Web
Price: \$5,000

KICK-START YOUR VERSIONONE IMPLEMENTATION

VersionOne Kickstart is a four-hour remote training session focused on optimizing your VersionOne setup. From a project tree evaluation to application configuration assistance, a VersionOne product expert will provide implementation consulting and make recommendations for efficient use of VersionOne in the organization. Considerations will include security needs, future growth of the project tree and use of best practices for the agile processes in VersionOne.

Length: 4-Hour Remote Session
Location: Online
Price: \$1,250
